IT WAS WHAT HE SAID

It is said that Senator McLaurin of Massissippi, was asked to g down in his boine state the other day Itom Washington and 4 by an oration at some farmers a desame article says that it is usual ly the case that a United State Senator is asked to divide time with nobody, he being consider d big enough for all purposes himself, and Senator McLauria is a good speaker and an able s un-tor. But at this meeting the farmers were more intered d t what Superintendent Powers so if than they were in what the donstor said, and that his remark were applanded more than were Those of us who remember the

speech Mr Powers made in Do than a few weeks ago are not so: prised at the people of Mississip i paying strict attention to he talk He is one of the most but hant men who has ever made and of the prohibition bill present at address in Dothan and any auch tecent aession of this Legislic ence might prick their ears to his ture remarka and go to sleep on the United States Senator, being unduly criticised without

THE MEETING TONIGHT

The estizens of Dothan are te quested to go out to the court house tomplit to reiterate the sentiments and statements made about two years ago. The grea mans to business men are just as much in favor of probibits a now as they were when we kelled the dispensary. They want to convey to the law makers assurances that this town stands for the constitutional amendemnt that is to come up, thus having a new law passed so that no town, section or county, can engage in whiskey There may be other communitus in Alabama that do not feel this way about it but these people here have hved long enough without the sale of whisher to know that the town gets along just us well withou the whiskey revenue as it did with it coats a little more, but the people are being educated to a higher standard of morals and they put out money to maintain this stan dard with better grace than they once did

Now there are some who will tell the home man or the y nor, that whiskey can be hought n ght here in Dothan. That may he so, but it is a most unsatisfac tory way to go after whiskey Those who feel that they Those must have it, patronize the press company and take it home This class, usually, as composed of men who don't get drunk and raise trouble. By this method the effects of a bad example are not

so great on the youth.

Then there may be still others t he order their liquor and mix if up with a lot of bust-head, and Il it on the sly to negroes and a few whites who cannot asse the rice to buy four quarts at a time We don't know this It is trouble to hear some man say that it is being done, but it is hard to persuade him to make a witness
